How about cheats for GTA Online? You're not alone. With any game as popular and expansive as GTA 5, it's inevitable that people will start looking for ways to have everything as quickly as possible. Most previous games in the Grand Theft Auto series include some kind of money cheat that gives your character an instant cash bonus, and which you can then use to easily buy anything in the game. GTA 5 has plenty of things to purchase - cars, weapons, properties, upgrades, clothes, businesses - and GTA Online increases that by orders of magnitude thanks to its DLC. There's also a ton of single player cheats - but is there one for money? Since most GTA games have had some kind of cheat code that you could use to add large sums of in-game currency instantly, it's logical to assume that the latest game in the series would share this feature - however, that isn't the case. While GTA 5 features an extensive list of cheats, none of them let you add cash. The reasoning behind this is simple and also happens to be the alternative to using cheats to get more cash. The simulated stock market in GTA 5 is connected across all instances of the game in order to make it feel a little bit more like a real stock market. Each player affects the market and all other players will see stock prices rise and fall accordingly. There is no GTA 5 money cheat in story mode. While there is a ton of GTA 5 cheats for vehicles, weapons, invincibility, etc, there is no cheat code for infinite money. In single player there are GTA 5 cheats for pretty much everything, from making yourself invincible to maxing out your health and armour, but there isn't one that'll give you an infinite bank balance. This means that players who don't want to resort to using cheats. However, the stock market is also the solution to the money problems you might have in single player. If you play your cards right, all three protagonists will be walking around with millions. We also have some other GTA 5 stock market tips here. The case is the same in GTA Online - there is no money cheat, or any cheats at all for that matter. Here, it makes a lot more sense though - since players are in the game together, using cheats would completely ruin the balance and gameplay for everyone involved. Additionally, Rockstar sells Shark Cards, which allow players to spend real money in exchange for in-game currency - if you had a free money cheat, nobody would buy Shark Cards, would they? None of the single player cheat codes work either. There was a time when it was possible to purchase "mod menus" from shady developers that let you "hack" in GTA Online, but doing so will land you a a permanent account ban. Take-Two has been diligently hunting down mod menu developers and shutting them down these past few years. Other than grinding or buying Shark Cards, there is no quick and easy way to big bucks. In your quest to discover the truth about GTA 5 money cheats, it's likely that you'll come across services that claim to give away or generate in-game currency for you, in exchange for mundane tasks.
